mittee. The Hall of Representatives, which seats 1,500 persons, was filled and the galleries were bright with the costumes of women. The country delegates were out in force, notwithstanding the predictions that many of them would fail to countenance the convention as irregular and inauspicious at this time. Mr. Hinrichsen announced the temporary organization, Monroe C. Crawford being the chairman, and an adjournment was taken to allow the committees to pre-

On reassembling at 2 o'clock Judge McConnell, who recently became widely known by his resignation from the presidency of the Iroquois Club of Chicago because of becoming a convert to sliver, was made permanent chairman, the rest of the temporary officers being regularly elected also. Judge McConnell had an enthusiastic reception, and the convention then cried loudly for Congressman W. J. Bryan, who said in part:

gressman W. J. Bryan, who said in part:

It is to be regreited that the first Democratic President since the war should become the trusted instrument in the hands of concentrated wealth, the official head of the "communism of pelf." When he was found he was as modest as Saul and as conspicuous among his fellows for his good conduct, but since he has sought counsel of the "familiar spirits" of Wall Street he has tried to take the political life of every Payld whom the people trusted. Grover Cleveland is not the Democratic party. Democracy is greater than any man. It will exalt him who rightly interprets its truths, but it will cast him down who seeks to wear its livery and yet serves piutocracy. Sliver must be restored to its ancient place, and the United States must do its part in the work of restoration.

Finally the tumult was stilled long enough to allow Hampton Bell, of McCoupin County, to shout: "I move that so much of the resolutions as relates to Governor Altgeld be stricken out." There were loud cries of "No! no" and "Put him out?" But Mr. Bell continued and babel reigned again until the Servetary of State made his palected at enuesses in the morning. The delegates at large are ex-Mayor John P. Hopkins, Chicago; Secretary of State W. H. Hinrichsen, Jackson-ville; ex-Congressman George W. Fithian, New-ton, and Lewis B. Parsons, Flora.

The wheels passed over his left forearm and crushed both bones. Kahn also sustained severe contusions of the right leg and hip and back. There was no policeman in sight when the accident occurred, and the truckman escaped by lashing his horses into a run. Kahn was picked up by some pedestrians and carried into a house near by. The police were notified and sum-moned an ambulance, and Kahn's injuries were dressed by the ambulance surgeon.

THE ARMOURS CHARGE FRAUD.

THEY HOLD STOCK IN A TACOMA STREET BAIL WAY COMPANY WHICH IS IN DAN-

GER OF FORECLOSURE. San Francisco, June 5.-A dispatch from Tacoma eays: In attempting to foreclose the \$1.350.000 mortgage against the Tacoma Railway and Motor Com-pany the New-York Guaranty and Indemnity Company has encountered the Armours, of Chicago-P. D., jr., and J. O. who have set out, according to the statements of the local stockholders, to compel a compromise or to show up the alleged street rall-way wrecking methods of the General Electric Company. Incidentally the suit has brought out the mis appropriation of \$750,000 of the local company's bonds by Paul Schulze, late general Western manager of the land department of the Northern Pacific Haliroad, who committed suicide when his creditors

pushed him to the wall. The Armours became interested in the local street raliway company several years ago, when it had \$150,000 in capital stock. On this Schulze issued \$1,500,000 in bonds and disposed of \$1,500,000 through the New-York Guaranty and Indemnity Company The Armours are innocent stockholders, and claim that the bond issue was excessive and unwarranted. In placing these bonds, it is alleged, Schulze made In placing these bonds, it is alleged. Schulze made use of a dummy syndicate. Another feature of the deal was the purchasing of the Suburban Railway for \$350,000, when it was valued at only \$60,000, besides turning over to the seller a bonus of \$141,000. All this, the Armour stockholders assert, was done in collusion and with a view to permitting the General Electric Company to wreck the local street railways.

Ex-President Harrison, who arrived here on May 16, will leave New-York to-day and so to Philadelphia; at least that was his programme yesterday. He suid yesterday that he would be the guest of ox-Postmaster-General Wanamaker in that city over night, From there he will continue his journey to his home in Indianapolis. When General Harrison was asked if he would return the said.

General Harrison was asset in the said:
to New-York again this summer, he said:
"I am not sure, but I expect to be back some
time in August, I want to go to the Adirondacks
for a week or ten days in that month, and I shall
stop off here for a day or so; but it will not be for stop off here for a day or so, but it will not be for long."

General Harrison spent the most of the day yesterday at Eastman Johnson's studio, it was his twenty-fifth and last sitting. He rose early and ate breakfast with Judge C. W. Fairbanks, of Indian, apolis. The Judge is a warm personal friend of General Harrison, and is in favor of the nomination of the ex-President in 188. He tinks that General Harrison is the logical candidate.

Cornelius N. Bliss and General Stewart L. Woodford were callers upon the ex-President yesterday. They arrived at the hotel early in the morning and remained a half hour. They have both seen the ex-President before during this visit, and say that politics had nothing to do with their visit.

IT WON AFTER TEN YEARS.

THE STATEN ISLAND PIER BILL SIGNED.

FOR IT-THE ANNUAL SUPPLY BILL AND

MANY MEASURES OF LOCAL INTEREST APPROVED BY THE GOVERNOR.

Albany, June 5.-Governor Morton has signed Assemblyman Conklin's bill to establish the pier and bulkhead lines around the entire shore of Staten Island, as authorized by act of Congress in 1888. The bill is said to be in the interest of the Baltimore and Ohio Railroad, and it is understood that the company will utilize the Island as a terminal. Efforts to secure the passage of the bill have been made for the last ten years, but they have been unsuc-

cessful until now. The Governor has signed the Annual Supply bill, which appropriates, in round numbers, \$1,800,000. The most unusual thing connected with the Governor's approval of the bill is that he vetoed only two items, one appropriating \$1,000 for an indoor rifle range for the Oswego State Armory, and the other appropriating \$300 extra compensation for the Assembly Ffnancial Clerk. The Supplemental Supply bill has not yet been signed.

Assemblyman Cutler's bill, amending the charter of the Hudson Suspension Bridge and New-England Railroad Company, was signed to-day. It changes the name of the company to the Highland Bridge and New-England Railway Company, It empowers the company to construct either a suspension or cantilever bridge across the Hudson River from the vicinity of Nyack to the opposite shore, but no piers or supports shall be erected in the river. The company was incorporated in 1870, and it has until 1906 to complete the bridge.

The Governor has also approved the following bills; Chapter 86. Senator Donaldson's, providing that every licensee of the State Board of Pharmacy, who shall annually, within thirty days from November 1 which he shall receive a renewal of his license.

Chapter 897. Extending the corporate existence of the trustees of the Exempt Firemen's Benevolent Fund of the Twenty-third Ward of New-York City. Chapter 800. Providing that no brewery, distillery, chapter 90. Providing that no brewry, distinary, staughter-house, soap, candle, varnish, vitriol, glue, soap candle, varnish, vitriol, glue, link, turpentine or bone factory, or manufactory of guipowder, or any bone-boiling establishment or factory in the elb.

When Cox reached the woman and grasped her clothing, she made an effort to seize him around the arms, and it was only by grasping her hair and forcing her head back that Cox succeeded in making her let go, fer managed to reach the bulkhed with the woman, and with the aid of a pile he was enabled to hold her until a rope could be passed to him by Policeman Lewis, with whom he half been talking when the woman took her lead, and when the woman took her lead.

As soon as the woman had been laid upon the street level.

As soon as the woman had been laid upon the street artificial respiration was resorted to and seemed to be successful until just before the arrival of the ambulance which had been summoned from the Hudson Street Hospital. Then the woman callapsed, and when Dr. Sameer arrived he pronounced her dead.

The body was taken to the Leonard-st. station, where it was seen to be that of a woman about fifty years old, 5 feet 2 inches in height, with light complexion, gray hair and brown eyes. In the pocket of her skirt were three pennies and a white handlecrebief.
